Docket No. TN-1074C

amendment, as well as the return postcard stamped by the PTO, which lists the preliminary amendment as being received in conjunction with the § 53(b) application.

Applicants note that Claim 25 calls for "a locking mechanism disposed on one of the structural body and the first element, the locking mechanism comprising a handle rotatably movable between a first position locking the first element on the structural body and a second position unlocking the platform, wherein the handle is moved less than 360° between the first and second positions," which are elements not explicitly called for in independent Claims 1 and 15 of US Patent No. 5,988,243. Accordingly, the present claims are different from Claims 1-20 of US Patent No. 5,988,243. Thus, 35 USC § 101 is inapplicable.

In view of the foregoing, all the claims are patentable and the application is believed to be in condition for formal allowance. Allowance of Claims 2-7, 13-15, 18-23 and 25-28 are respectfully requested.

Respectfully submitted,

Adan Ayala
